

Chapter 18

Implementation Schedule

This chapter identifies which Plan recommendations are to be implemented in each of the five years addressed by this Plan Update. Within each year's list, the implementation actions are arranged into the following general categories:

A. Public Education

- Annual Public Information Plan
- Educational Materials
- Personal Contact
- Targeted Campaigns
- Natural Lawn and Garden Project

B. Business and Institutional Assistance

- Technical Assistance
- Business Information
- Recognition Programs
- Partnership Development
- Agency Demonstration Projects
- Construction and Demolition Waste Assistance

C. Regional Coordination and Planning

- Public Involvement
- Solid Waste Management Plan
- Intra-County Coordination
- Bi-State Regional Coordination
- Washington State Coordination
- Grants

D. Disposal and Diversion System

- Collection Programs
- Transfer, Disposal and data
- MRW Disposal
- Special Wastes
- Enforcement
- MRW Study

The Chapter and Recommendation numbers are shown, for reference to further explanation. Most of the Implementation Actions in this update of the Solid Waste Management Plan are multi-year actions, and they are listed for each year. The actions are generally arranged so that the higher priority actions are shown before the lower priority actions, although there is no strict delineation. Priorities will continue to be reviewed each year, and annual priority lists developed. At the end of each year's list is a section for "Targets of Opportunity." These are actions which will be addressed if certain circumstances occur to make them appropriate.
